

- Smooth rounded design
- 1.5mm thick Grade 304 satin stainless steel
- Raised landing area around bubbler tap
- Heavy duty NSF or WRAS approved bubbler tap
- Suitable for indoor or outdoor installation
- Integral splashback
- Side positioned bubbler for optimum flow trajectory
- Ideal for schools and public amenities

This robustly made wall mounted drinking fountain is constructed from 1.5mm thick satin polished stainless steel. It can be installed for adult or junior height. For safety purposes, the unit features a smooth rounded shape, avoiding sharp corners which could cause injury to the user.

This model comes with appropriate wall mounting brackets and is manufactured in one piece from grade 304 stainless steel.

For ease of use, the bubbler valve is situated to one side, on a raised landing area and features a shielded outlet nozzle. The integrated splashback provides for ease of cleaning.

This stainless steel drinking fountain is suitable for outside installation but will need to be isolated and drained down during periods of freezing weather to prevent damage to the valve and pipework.

Supplied with a 32mm grated waste fitting and a chrome plated brass shielded bubbler complete with water inlet fitting to suit 15mm diameter pipework.
